SUMMARY

Thank you for considering Solid Rock Engineering Consultants, Inc., an architectural, engineering and general contracting firm based in Jacksonville, Florida. Since 2004, we have performed work throughout the Southeastern United States. Our clients tell us we're nothing like stereotypical architects, engineers and contractors. That's because we are highly responsive to their needs, explain things in layman's terms and perform the work on time and on budget. When it comes to precision and accuracy we deliver!

SERVICES

Clients from all types of business sectors rely on us for innovative, cost-effective solutions. We plan, design, permit and build governmental, military, commercial, industrial projects and residential developments. Our clients rely on us for detailed design-build of new construction, as well as to expand or restore existing buildings, commercial sites and residential communities to achieve maximum return on their investment.

Architectural, Engineering and Construction Services

- **Plan, design, permit and construct utilities, lift stations, storm water drainage, detention ponds, roadways, recreation facilities, parking lots, airports, seaports and military facilities**
- **Lining of existing water, sewer and storm drains**
- **Detailed design and construction of new buildings**
- **Expansion, restoration or repair of infrastructure, existing buildings, commercial sites and residential communities**
